

PARTY PLATFORM SAMPLE

We, the Federalist/Nationalist party of the (insert current year) session of Girls State, have developed a platform that reflects the concerns and ideas of the people. With this, we present to you the (year) Federalist/Nationalist Party goals.

I. Foreign Affairs

As it is our duty to uphold the United States Constitution and it is written that all people are created equal, we the Federalist/Nationalist Party will strive to support the perpetuation of peace and individual rights among all peoples of the world.

II. National Security and Defense

World bipolarization is a pressing problem with but one solution a worldwide adaptation of democratic ideals. Our only hope for future security is to insure strong world support today. This is why we must seek out those nations who favor democracy and even those who are unsure to write for the common good of all mankind.

III. Environmental Protection

We the Federalist/Nationalist Party will devote our efforts toward preserving the natural conditions of our environment by:

- A. encouraging sound development of our natural resources,
- B. supporting the control of pollution without jeopardizing industry.

IV. Energy

The Federalist/Nationalist Party promotes the increased research and development of alternative energy sources. During the interim, we recognize our dependence on fossil and nuclear fuels, but encourage incentives for conservation.

V. Federal Funds

We the Federalist/Nationalist Party support the evaluation of programs receiving appropriations from the Federal Government to determine the necessity of the programs and regulating those deemed unnecessary.

VI. Education

As education is sure to be the key to the American future, we the Federalist/Nationalist Party feel it is imperative to address the following issues:

- A. Education opportunities shall be provided equally without any discriminatory factors,
- B. It is essential that a steady flow of funds be realized in all levels of education.

VII. American Legion Auxiliary

The American Legion Auxiliary has shown true qualities of Americanism spirit, pride and leadership. We condone the continuation of teachings and beliefs as applied to the Girls State program and the American Youth. We would like to extend the most sincere thanks and appreciation to the Auxiliary for the time, effort and energy expended for the program.

Note: This can be taken another step; address State issues first and then Federal issues.
