

CITY PROBLEM – COUNTY FAIR

City Problem – Cities identify an issue and develop a solution for presentation to a panel of judges and their fellow Delegates. The goal is to encourage use of the city offices and teamwork by the entire city. City problems are preceded by a banner parade to include city cheers as marching. City banners will highlight mottos, mascots, themes, city flags, etc. Cities should be kept in room so they can see everyone's presentation.

County Fair – Conducted in conjunction with the picnic. The goal is for each city to prepare an activity for the enjoyment of the other cities' citizens during and after the picnic. In addition, guest may man an information tables of interest to the Delegates (e.g., recruiters, college, FBI, ALA, etc.) Participation in the County Fair holds attention, keeps the delegates in the area, and encourages interaction during the entire period of the picnic.
